

PRODUCT OFFERINGS

SWIFTWALL[®]
SOLUTIONS

SwiftWall Solutions began with the idea to provide a reusable, fast, and simple temporary wall and construction barrier structure. Our lightweight system is easy to install, remove, and relocate, providing professionals in the construction industry with tools that make their lives safer and more productive.

PANELS

Isolate and contain any worksite with SwiftWall Panels. Made of ABS (Class A fire-rated material optional) and featuring a R7 insulative value, our non-hydroscopic SwiftWall Panels also help keep the noise down with a STC21 sound rating.

Standard Panels are manufactured to a sturdy 4' wide and 1" thick, and come in heights of 4', 8', 10', 12' and 16'. Panels can be stacked as high as required by using C-Channels and a support skeleton such as metal stud framing. Consult with a SwiftWall sales representative for more information.

Standard Sizes:

4'
8'
10'
12'
16'

All standard sizes are manufactured to 4' wide by 1" thick

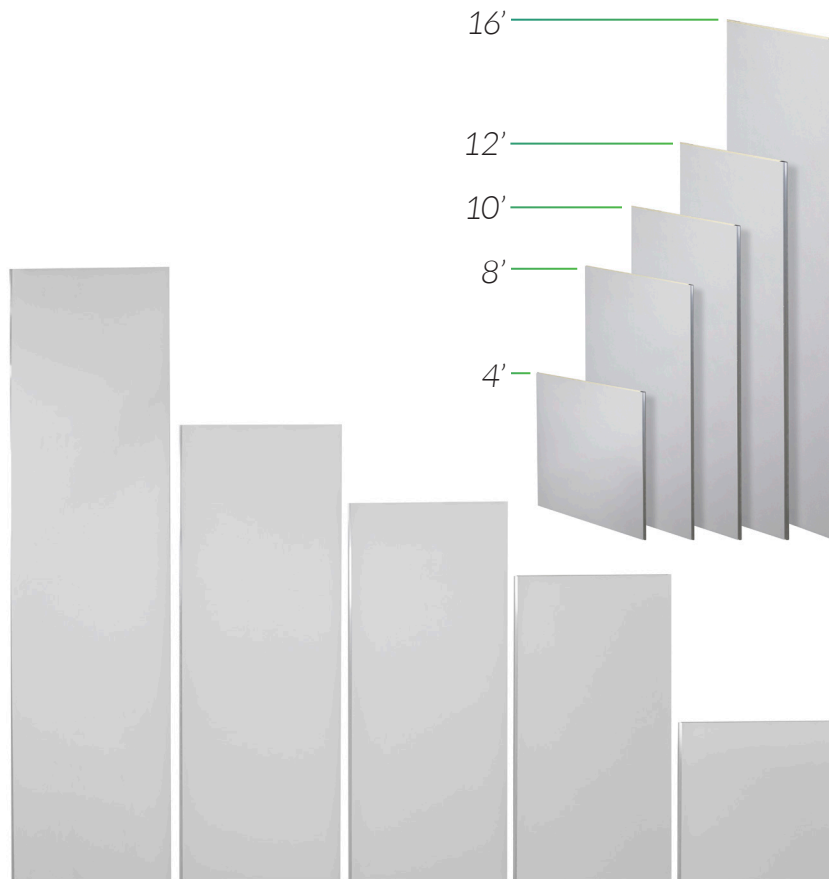

Weight:

4': 17.5lbs
8': 35lbs
10': 44lbs
12': 53lbs
16': 70lbs

Material: ABS with aluminum joiners and polyisocyanurate core (Class A fire-rated material available upon request)

Finish: Option 1: White light-sheen matte hair-cell ABS
Option 2: Powder coated semi-gloss aluminum (Class A Only)

SDS: Printed copies available upon request

The male and female joiners (patent pending) on every SwiftWall panel ensure a secure and virtually seamless fit.
